POTENTIAL SITE PLAN:

FOREIGN TRADE ZONE DESIGNATION:

- The U.S. Foreign-Trade Zones (FTZ or Zone) program “expedites and encourages foreign commerce” in the United States.
- Goods that remain in the Zone may be stored, manipulated, mixed with domestic and/or foreign materials, used in assembly or manufacturing processes, or exhibited for sale without triggering the payments of U.S. Customs and Border Protection (CBP) duties and excise taxes.
- Imports may flow directly into the Zone and be held there indefinitely duty free. Duty is assessed only when those goods are shipped out of the Zone.
- In the State of Arizona there is an additional state defined tax benefit. Arizona State Law allows for any property in a Zone that is both approved and activated, to be re-classified down from 19.5% valuation to 5% valuation (this is a 74% reduction in taxable value).

FTZ BENEFITS:

- Elimination of delays in customs clearance.
- Eliminating duty drawback.
- Avoiding duty on waste or scrap
- Providing relief from inverted tariffs.
- Big saving in processing fees.
- Arizona state property tax benefits. 74% reduction.
